Failure to report an incident to a Pulaski Academy & Central School District employee may result in disciplinary action.

The Building Principal must notify the Superintendent as well as appropriate local law enforcement agency of those code violations that constitute a crime and substantially affect the order or security of a school as soon as practical, but in no event later than the close of business the day the principal learns of the violation. The notification may be made by telephone, followed by a letter mailed within 24 hours of the notification. The notification must identify the student(s) and explain the behavior that violated the Code of Conduct.

VII. Disciplinary Procedures and Penalties

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. Pulaski Academy & Central School District personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the student's ability to grow in self-discipline.

Disciplinary action, when necessary, will be firm, fair and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

1. The student's age.
2. The nature of the offense and the circumstances which led to the offense.
3. The student's prior disciplinary record.
4. The effectiveness of other forms of discipline.
5. Information from parents, teachers and/or others, as appropriate.
6. Other extenuating circumstances.

As a general rule, discipline will be progressive. This means that a student's subsequent violations will usually merit a stiffer penalty than the first violation.

If the conduct of a student is related to a disability or suspected disability, a manifestation determination hearing will be held before additional consequences are rendered. A student identified as having a disability shall not be disciplined for behavior related to his/her disability.

Consequences

Students who are found to have violated the Pulaski Academy & Central School District Code of Conduct may be subject to the following penalties, either alone or in combination with one another. The school personnel identified after each penalty are authorized to impose that penalty, consistent with the student's right to due process.

All students will have an opportunity to present their version of the facts to the Pulaski Academy & Central School District personnel imposing the disciplinary penalty in connection with the imposition of the penalty.

VIII. Removal of a Disruptive Student

Teacher

A disruptive student is one who negatively affects a teacher's ability to teach and makes it difficult for other students in the classroom to learn. In many instances the classroom teacher can control disruptive student behavior by using good management techniques. Occasionally, however, it may be necessary for a teacher to remove a disruptive student from the classroom to ensure that the other students continue to learn.

If the student does not pose a danger or ongoing threat of disruption to the academic process, the teacher must provide the student, before the student is removed, with an explanation for why he or she is being removed. The student must also be given the opportunity to present his or her version of the relevant events. Only after this informal discussion may a teacher remove a student from class.

If the student does pose a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately to in-school suspension or the principal's office. The teacher must,

however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within 24 hours.

The teacher must complete a Pulaski Academy & Central School District established referral form, when appropriate, to explain the behavior that caused the removal from class. The referral form should be turned in to the appropriate administrator by the end of the school day.

Nothing in this section of the Code of Conduct abridges the customary right or responsibility of a principal to suspend a student. Further, nothing in this code abridges the customary right and responsibility of a teacher to manage student behavior in the classroom. Short-term, time-honored classroom management techniques, such as “time-out” in an elementary classroom or in an administrator’s office, or sending students briefly into the hallway, are not considered removals from class. The removal process should not become a substitute for good classroom management.

Bus Driver

A disruptive student is one who negatively affects a bus driver’s ability to safely operate the Pulaski & Academy Central School District bus or poses a danger to another student. In most instances, the bus driver can control disruptive student behavior by using good management techniques, and implementing verbal and written communication with students and parents.

The bus driver must complete a Pulaski Academy & Central School District established referral form as soon as possible to explain the behavior that caused the removal from the bus. The referral form should be turned into the appropriate administrator by the end of the bus route.

IX. Suspension of Students

Within 24 hours after the student’s removal, the principal, or another Pulaski Academy & Central School District administrator designated by the principal must notify the student’s parent, in writing, that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the principal, supervisor, or the designated administrator to discuss the reasons for the removal and behavior modification(s) to remedy the cause for the removal. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the student’s removal at the last known address for the parent. Where possible, notice should also be provided by telephone if Pulaski Academy & Central School District has been provided with a telephone number(s) for the purpose of contacting parents.

Minimum Suspension Periods for Students Who are Repeatedly Substantially Disruptive

A student who is removed from class on three or more occasions throughout the school year may be subject to disciplinary action ranging from a After School detention to an out-of-school suspension. Such removals need not be by the same teacher. The discipline may be increased or reduced on a case-by-case basis by the superintendent, or his/her designee, consistent with law.

Minimum Suspension Periods for Students Who are Violent

Students who are deemed to be “violent pupils” as defined by Education Law Section 214(2-a)(a) may be subject to a minimum out-of-school suspension of at least five days. The suspension period may be increased or reduced on a case-by-case basis by the superintendent, or his/her designee, consistent with law.

Procedures to Inform Law Enforcement Officials of a Crime and Filing Criminal Complaints

When a violation of this code constitutes a crime, the superintendent has established the following procedures to report the incident to the appropriate law enforcement agency and to follow through with filing a criminal/juvenile delinquency complaint:

1. Any individual who believes that he/she has witnessed a crime either on school premises or at a school function should report it to the appropriate building principal or his/her designee. The principal/designee will gather the necessary information to determine whether he/she believes that a crime has been committed. If so, the appropriate local law enforcement agency will be contacted immediately. If not, the principal/designee will take whatever disciplinary steps may be necessary, consistent with the code. These procedures should be followed in all circumstances except for reporting "child abuse in an educational setting" where the procedure for reporting such incidents is set forth in the statute.
2. If the school district is deemed (by law enforcement) to be the appropriate entity to file a criminal/juvenile delinquency complaint against a code violator, the appropriate school official (e.g. building principal) will be expected to file such a complaint. Where the victim of the crime is an individual, whether a student, teacher, staff member, visitor, etc., the crime victim will be strongly encouraged to file such a complaint.

PINS (Persons in Need of Supervision) Petition/Referral to Human Services Agencies

The superintendent has established the following procedures for filing PINS petitions or for the referral of pupils to the appropriate human service agency.

1. Where a student does not attend school in accordance with the Education Law or is incorrigible, ungovernable or habitually disobedient and beyond the lawful control of a parent or other lawful authority or who violates provisions of Section 221.05 of the Penal Law (unlawful possession of marijuana), the building principal having authority over the student will be responsible for filing a PINS proceeding against that student. Being incorrigible, ungovernable or habitually disobedient and beyond the lawful control of a parent or other lawful authority has the same definition as that provided in Article 7 of the Family Court Act. These petitions may also be filed by guidance counselors, or other certified staff members, but must be done in consultation with the building principal. Prior to commencing any such proceedings, the building principal should review the matter with the superintendent, who may consult with the school district's attorney.
2. The superintendent will make available to all building principals a list of appropriate human services agencies located in or near the district. When, in the discretion of the building principal, referral to such an agency is appropriate, such referrals will be made. This does not, however, affect the mandatory reporting requirements of all school district employees to make referrals for suspected child abuse.

Students with Disabilities

The Board recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. The Board also recognizes that students with disabilities are entitled to certain procedural protections whenever school authorities intend to impose a removal or suspension that changes their educational placement. The Board is committed to providing these procedural protections when disciplining these students. This Code of Conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

In-School Suspension

The Board recognizes that the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes building administrators and the superintendent to place students who would otherwise be suspended from school as the result of a code of conduct violation in “in-school suspension”. “In-school suspension” is the temporary removal of students from the classroom and their placement in another area of the school.

A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law 3214. However, the student and the student’s parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the in-school suspension to discuss the conduct and the penalty involved.

X. Public Conduct on School Property

The district is committed to providing an orderly, respectful environment that is conducive to learning. To create and maintain this kind of an environment, it is necessary to regulate public conduct on school property and at school functions. For purposes of this section of the code, “public” shall mean all persons when on school property or attending a school function including students, teachers and district personnel. The restrictions on public conduct on school property and at school functions contained in this code are not intended to limit freedom of speech or peaceful assembly. The district recognizes that free inquiry and free expression are indispensable to the objectives of the district. The purpose of this code is to maintain public order and prevent abuse of the rights of others.
