## School Needs :

Joelle would like to intend this to be for building wide needs, not just individual classroom needs.

NYS has their own version of a NY Reads thing.
Popcorn and Snow-Cone Machines - Cathy will research
Daniel Jude Miller; Author Night- $\$ 750$ approx. cost, he would be in the building all day interacting with students. Each Student receives a signed poster, and discounts on books. Called Monsters from Manhattan.

Bubble Man - \$1,000 approx. cost
Bullying presentations are outrageously priced(\$5,000!).

Could "tag" money for a new slide for the smaller playground. There are many updates that we could add to this. Pulaski Endowment Grant for possible things.
